## Testimonial for Noreen Ward of The Gift Designers

I would like to take this opportunity to share my wonderful experience in doing business with Noreen of The Gift Designers. Although it wasn't specifically for branded products, I had a unique opportunity that I wanted to extend to her. As part of a recent volunteer project I participated in, we wanted to fill a re-usable tote bag full of items that would encourage young kids to participate in healthy eating and active living. With very little direction to start, Noreen was able to compile a very detailed list of potential items and made the whole process very simple and stress free!

I highly value several qualities in her and her company that will gladly have me coming back for business. First off, she was very easy to connect and interact with. She carries a wonderful ease about her and delivers honest and trustworthy service. Throughout the process it was very easy to communicate with Noreen and she was able to listen and understand the concept I was trying to deliver. Furthermore, everything was done in a timely and efficient manner, but what made me even more appreciative were some last minute details that she was able to pull together on my behalf! The products were of great quality and most importantly, the kids were ecstatic to receive a bag full of items that they would not have had otherwise.

Noreen and her team did a great job and I will gladly send her more business in the future!

Sincerely,

Dr. Stephanie Kolanos
